6
7
8 PYDEV DEBUGGER WARNING:
9 sys.settrace() should not be used when the debugger is being used.
10 This may cause the debugger to stop working correctly.
11 If this is needed, please check:
12
13 http://pydev.blogspot.com/2007/06/why-cant-pydev-debugger-work-with.html
14 to see how to restore the debug tracing back correctly.
